Questions

Q: How many times per year can a graduate student apply for a GSC grant for travel?
A: There is only one GSC grant competition per year.

Q: Can GSC grants be used to pay for student wages—for instance, to pay undergraduates to do document processing or coding related to the project?
A: No, the GSC competition has not historically allowed funds to be uses for student wages or stipends. However, we will loosen the guidelines to allow for that possibility in the next competition. Read the next solicitation carefully to see how this changes.
