UM Innovations in STEM Education

Stakeholders Meeting
January 24, 2012
11:00 a.m.
Johnson Commons Ballroom
Agenda

• STEM Education: A National, State, and University Priority
• State K-12 Perspective
• Local K-12 Perspective
• UM STEM Programs and Activities
• UM Innovations in STEM Education
Meeting Objective

Create the means for UM programs to connect with each other and with external partners to achieve UM goals:

• Increase the number of STEM graduates, especially among underrepresented groups.
• Ensure all UM STEM graduates have 21st century skills and a broad understanding of the role of science in society.
• Increase the number of K-12 math and science teachers who can inspire and prepare students to pursue STEM education and careers.
• Improve science literacy.
• Provide the facilities and infrastructure needed to achieve these goals.
Significance

National
• U.S. competitiveness, leadership, and security
• Societal challenges: energy, health, environment, etc.
• U.S. lagging in STEM education and workforce preparation

State
• Diversify and strengthen the economy
• Build a competitive STEM workforce
• Increase educational attainment

University
• Educate a diverse STEM workforce
• Expand innovative STEM education and research facilities
State K-12 Perspective

Mississippi Department of Education
Trecina Green
Associate Superintendent
Office of Instructional Enhancement
Local K-12 Perspective

Lafayette High School
Patrick Robinson
Principal
Local K-12 Perspective

Oxford School District
Brian Harvey
Interim Superintendent
UM STEM-Related Programs

K-12 Teacher Preparation
David Rock, Ph.D.
Dean, School of Education
UM STEM-Related Programs

STEM Living Learning Community
Josh Gladden, Ph.D.
Residential College Faculty Fellow
Associate Professor of Physics and Astronomy
UM STEM-Related Programs

Center for Mathematics and Science Education
Alice Steimle, Ph.D.
Associate Director
UM STEM-Related Programs

Mississippi Space Grant Consortium
Peter Sukanek, Ph.D.
Director
Professor of Chemical Engineering
UM STEM-Related Programs

Center for Manufacturing Excellence
Ryan Miller
Assistant Director and Programs Manager
UM STEM-Related Programs

Minority Recruitment and Retention Programs
Don Cole, Ph.D.
Assistant Provost
Assistant to the Chancellor for Multicultural Affairs
Associate Professor of Mathematics
UM STEM-Related Programs

The Oxford Science Cafe
Marco Cavaglia, Ph.D.
Associate Professor of Physics and Astronomy
UM STEM-Related Programs

Informal Science Education and Broader Impacts
Kristen Swain, Ph.D.
Assistant Professor of Journalism
UM STEM-Related Programs

UM Women in STEM

Susan Grayzel, Ph.D.
Interim Director of the Sarah Isom Center for Women and Gender Studies
Professor of History

Susan Pedigo, Ph.D.
Associate Professor of Chemistry and Biochemistry
UM STEM-Related Programs

School of Engineering Ambassadors
Scott Kilpatrick
School of Engineering
Assistant Dean for Student Services
UM STEM Education Initiative

Task Force:

• **Established Spring 2010**

• **Participants:**

  M. Eftink, Co-Chair  W-Y. Chen  B. Hopkins  G. Parsons  K. Swain
  G. Hopkins, Co-Chair  A. Cheng  C. Hussey  L. Ridgeway  M. Valiant
  I. Banner  C. DeWitt  P. Lago  J. Ritchie  J. Vaughan
  A. Barlow  D. Cole  L. McCook  D. Rock  J. Wiginton
  A. Bouldin  L. Cremaldi  R. Miller  R. Savell  N. Wilkin
  M. Cavaglia  C. Cunningham  J. Morrison  S. Spain  D. Heil, Consultant
  A. Clark  J. Hale  W. Nicholas  L. Sparks  
  W. Cleland  M. Harper  J. O’Haver  J. Sumrall

• **Funding:** NASA grant for Task Force planning activities
UM STEM Education Initiative

Task Force Process and Activities:

• Student Focus Group Sessions
  • STEM undergraduate and graduate students
  • non-STEM education majors

• Task Force Visioning Sessions, led by consultants

• Identified Best Practices, UM Strengths and Needs

• Site Visits: Colorado, Minnesota, Tennessee, Illinois, Wisconsin

• Tradeline Conference
UM STEM Education Initiative

STEM Education Best Practices:

- Energetic STEM faculty
- Top level commitment to STEM Education
- Collaboration between STEM departments and SoE departments
- Reward system that recognizes STEM Education efforts
- Focus on K-12 teacher prep and development in STEM
- Integration of STEM research and teaching
- Innovative UG academic programs
- Portfolio of STEM Education funding
- Focus on STEM access to minority, female, 1st generation students
- Viable community outreach programs
- Use of technology to enhance teaching and learning
- Facilities that foster STEM teaching/learning/research/outreach
UM STEM Education Initiative

UM STEM Strengths:

• Faculty enthusiasm
• Administrative support
• LD courses taught by regular faculty
• Honors College
• Effective minority programs (e.g., AMP)
• Existing CMSE
• Small campus with few silos
UM STEM Education Initiative

Task Force Key Recommendations:

• Strengthen UG and Grad STEM education
• Expand enrollment in STEM courses and programs
• Foster innovation, research, collaboration and diversity
• Improve STEM teaching and learning in K-12 schools
• Make the case for a new STEM teaching/learning facility
• Secure public and private support for STEM education
• Provide community service/outreach in STEM fields
• Be a resource for economic development
UM STEM Education Initiative

Task Force Key Recommendations:

• Upper administrator to lead STEM efforts
• Announce to stakeholders
• Broaden participation in the STEM Ed Initiative
• Prepare a concept paper, to generate awareness and attract investment
• Inventory of current UM STEM education assets
• Align with UM 2020 Strategic Plan and Blueprint MS
• Develop strategy for seeking public/private funding
• Develop a unified vision and business plan
UM Innovations in STEM Education

Goals:

• Increase the number of STEM graduates, especially among underrepresented groups.

• Ensure all UM STEM graduates have 21st century skills and a broad understanding of the role of science in society.

• Increase the number of K-12 math and science teachers who can inspire and prepare students to pursue STEM education and careers.

• Improve science literacy.

• Provide the facilities and infrastructure needed to achieve these goals.
UM Innovations in STEM Education

**WORKING GROUPS (PROPOSED):**

- Innovative Teaching & Learning Working Group
- Student Recruitment, Retention, and Career Placement Working Group
- Faculty Recruitment, Retention, and Development Working Group
- Teacher Preparation and Professional Development Working Group
- Public Outreach and Engagement Working Group
- Facilities and Infrastructure Working Group
UM Innovations in STEM Education

**INNOVATIVE TEACHING & LEARNING WORKING GROUP**
- Interdisciplinary science courses for non-majors
- Enhance courses for majors in STEM disciplines

**STUDENT RECRUITMENT, RETENTION, AND CAREER PLACEMENT WORKING GROUP**
- Institutionalize minority-focused efforts
- Support for CC transfer students who enter into STEM majors

**FACULTY RECRUITMENT, RETENTION, AND DEVELOPMENT WORKING GROUP**
- Provide support for faculty to submit STEM Education proposals
- Recognizing these efforts in Tenure and Promotion considerations
UM Innovations in STEM Education

TEACHER PREPARATION AND PROFESSIONAL DEVELOPMENT WORKING GROUP

- Recruit for the science/math education programs in the SoE
- Expand teacher support programs through the SoE and CMSE

PUBLIC OUTREACH AND ENGAGEMENT WORKING GROUP

- Use new science building for various public outreach activities
- Expand camps, field trips and tours of UM science programs

FACILITIES AND INFRASTRUCTURE WORKING GROUP

- Analyze space needs for teaching STEM at UM
- Prepare a Case Study for a new science building
- Develop metrics and assessment resources
UM Innovations in STEM Education

Working Groups

• Develop action plans for achieving specific goals
• Guiding principles:
  ▪ Broad participation
  ▪ Alignment with UM2020 and Blueprint MS
  ▪ Innovation
  ▪ Synergy

Steering Committee

• Facilitate and communicate efforts
• Develop concept paper
• Develop and maintain inventory of assets
• Identify funding opportunities and assist in proposal development
UM STEM Education Genome
UM Innovations in STEM Education

Communication mechanisms:

• Wiggio: Online Collaboration and Information Sharing
• Public Web Page: www.stem.olemiss.edu
UM Innovations in STEM Education

Next Steps:

• Join Wiggio
• Respond to surveys
  • Working Group membership preferences
  • Funding opportunity interests
  • Inventory of assets
• Submit feedback, ideas, suggestions
